OUR PREFERRED SUPPLIERS

PIEK, THE PREFERRED PARTNER TO THE ELECTRONIC INTERCONNECTION INDUSTRY

PIEK is the leading and global educational centre and certification institute for the electronic interconnect industry. PIEK: the only educational centre in Europe authorised to offer the full range of IPC courses and certifications. PIEK: only working with its own instructors, all being Master IPC certified and having many years of international experience. PIEK: offers tailor-made courses and certifications across the world to anyone working in the electronic interconnect industry.

PIEK'S CUSTOMERS

Assembly and repair companies, the automotive sector, medical and healthcare-related organisations, security firms, aviation and aerospace, defence, cybercrime fighters, and organisations active in developing, producing and integrating electronics.

PIEK'S SUPPLEMENTARY SERVICES

Consulting, audits and test facilities for PB's and PBA's.

PIEK'S EDUCATIONAL OFFERINGS

- PB Design
- PB Fabrication
- PB Assembly
- PB Repair and Rework
- Cable and Wiring Techniques
- Special Training Programs

MORE THAN AN EDUCATIONAL CENTRE

PIEK is more than an educational centre. You can also turn to PIEK for:

■ PIEK COURSES AND CERTIFICATIONS

PIEK gives all IPC courses, in the field of PB Design, PB Production, PB Assembly, PB Repair and Rework, Cable and Wire technology, and various specialist IPC follow-on courses known as PIEK tailor-made courses. All these courses can be given at your own company location or at PIEK's Heerlen head office. Besides, PIEK also has regional locations in various countries where courses are given. In addition to Face-to-Face courses, PIEK also offers online and e-learning solutions.

■ CONSULTANCY

PIEK can provide a second opinion in case of a dispute with a buyer or supplier.

■ TEST CENTRE FOR PBs/PBAs

We test PBs and PBAs on the basis of the relevant IPC criteria.

■ IPC VALIDATION SERVICES

PIEK is one of the few IPC educational centres authorized to offer validation services.

■ QUALIFICATION SERVICES

PIEK offers audit programmes in the following fields: production, logistics, processes and management.

WHAT IS IPC?

IPC, Association Connecting Electronics Industries®, is the global partner for the electronic interconnection industry. Together with the industry IPC develops standards for the electronic interconnection industry. These standards relate to courses, quality and safety. IPC certification stands for an excellent product.

RANGE OF IPC COURSES

PIEK's range of courses includes the following IPC certifications and recertifications:

- IPC Certified Interconnect Designer CID
- IPC Certified Interconnect Advanced Designer CID+
- IPC-A-600
- IPC-6012 incl. Space
- IPC-A-610
- IPC-J-STD-001 incl. Space
- IPC-7711/7721
- IPC/WHMA-A-620

Besides these PIEK also offers follow-on courses, the so-called PIEK courses. These provide more in-depth or cross-over training on top of the standard IPC course.

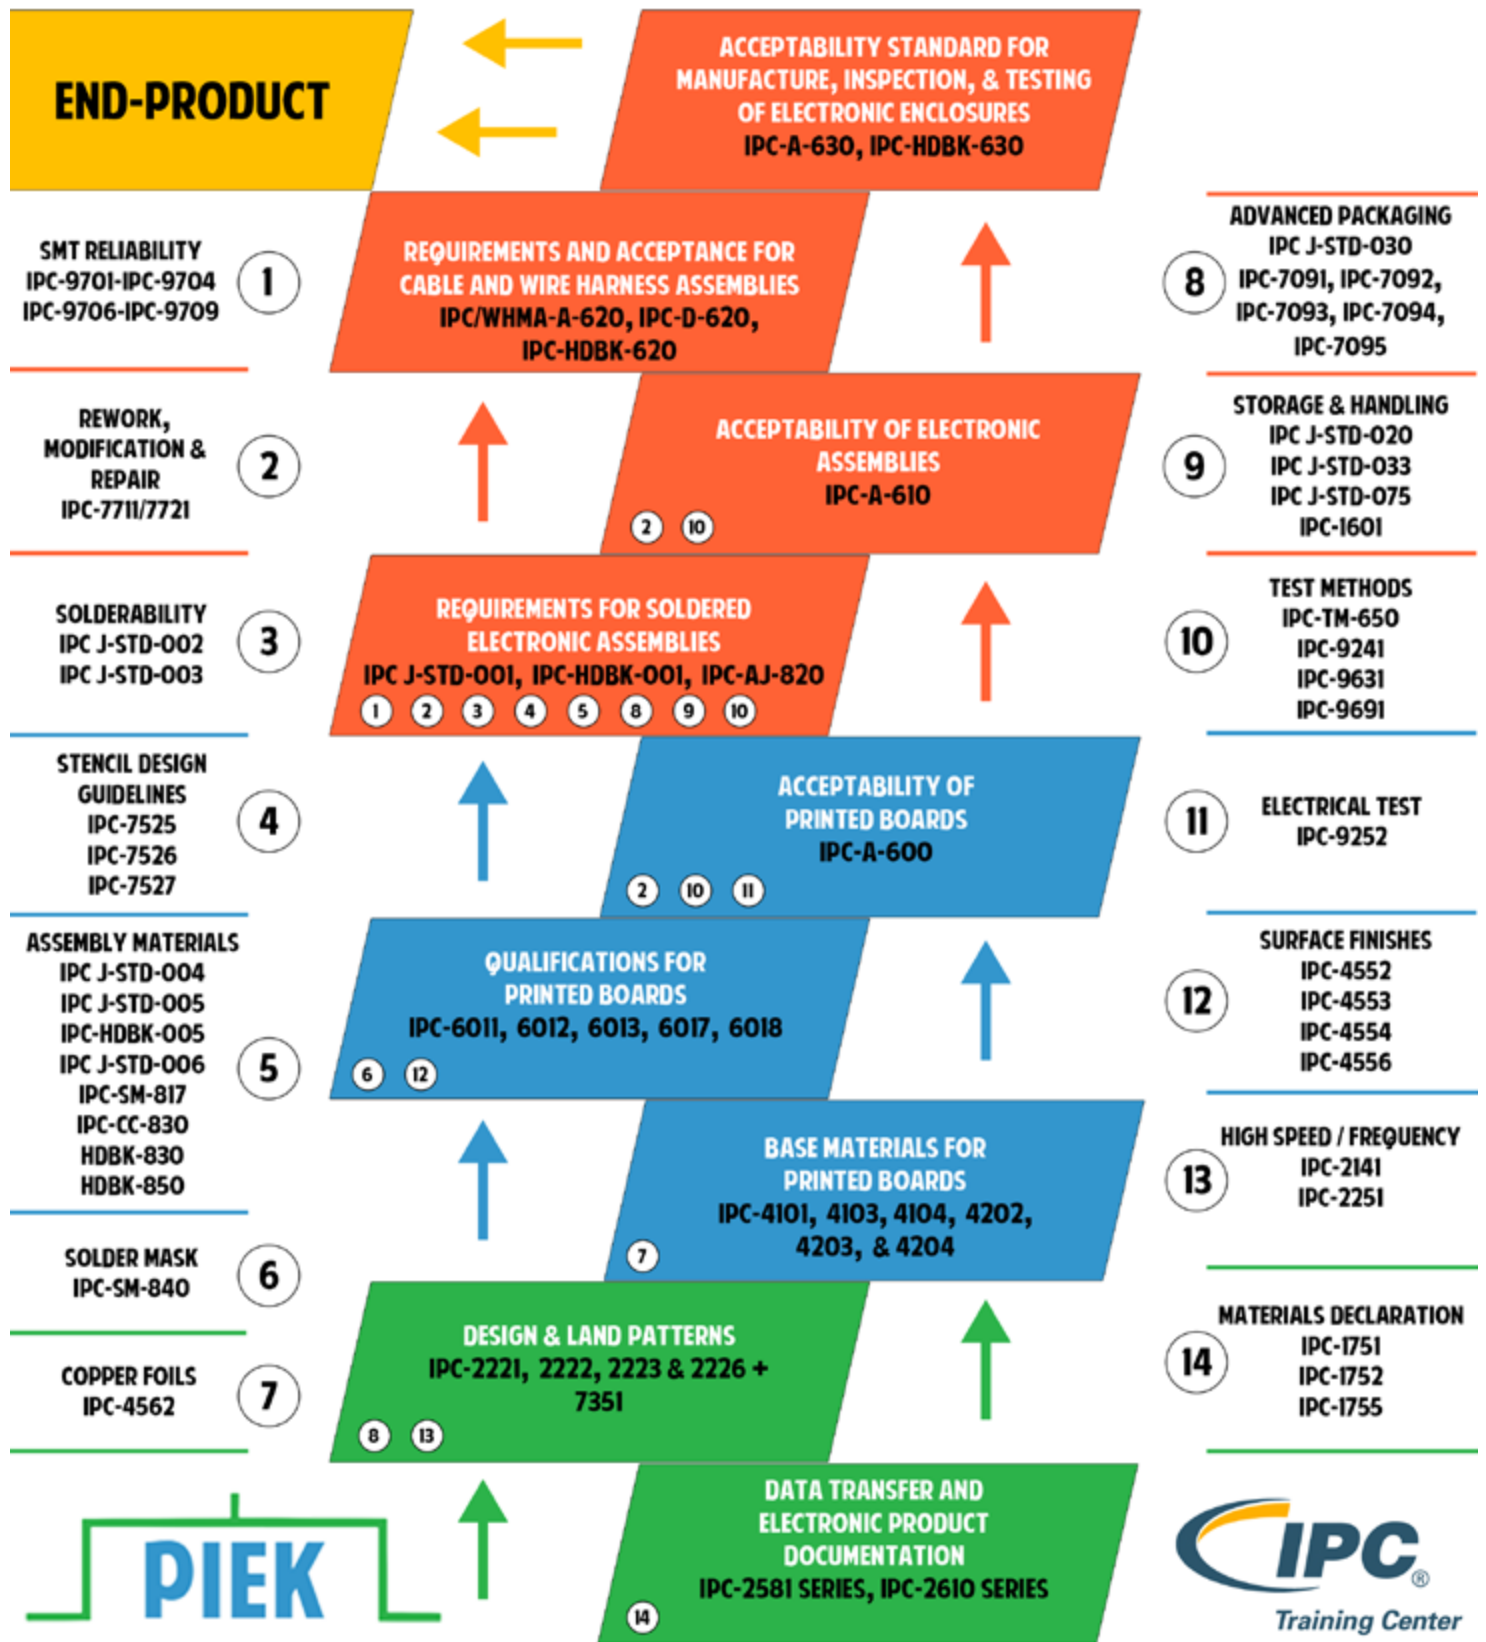

For a full list of training courses, visit: <https://piektraining.com/en/training-courses/>

IPC CERTIFICATIONS AND RECERTIFICATIONS

PIEK has over 55 years of experience educating staff in the electronic interconnection industry. Worldwide PIEK is one of the few educational centres authorized to execute all IPC certifications and recertifications. You can go to PIEK for specialist, expert and trainer certifications.

IPC STANDARDS - EVERYTHING YOU NEED FROM START TO FINISH
